HOW TO INSTALL SOFTWARE ON A WINDOWS COMPUTER

Open the installer in the folder labeled "Install Blender Software".

Double-click on the installer file. This'll bring up the setup wizard. Follow the instructions to install the software.

If the program doesn't show up on your desktop, open File Explorer. Then click on MY PC > Local Disk > Program Files and find the folder for the software you installed. Then find the application file, right click on it and select either "Create Shortcut" or "Pin to Taskbar".

HOW TO INSTALL THIS SOFTWARE ON A MAC

Double-click the DMG file and move the app into your applications folder.

Note: Macs 10.12 and above may not allow you to open programs that are not downloaded from the app store. Use this link to watch a video that will show you how to allow 3rd party applications:
